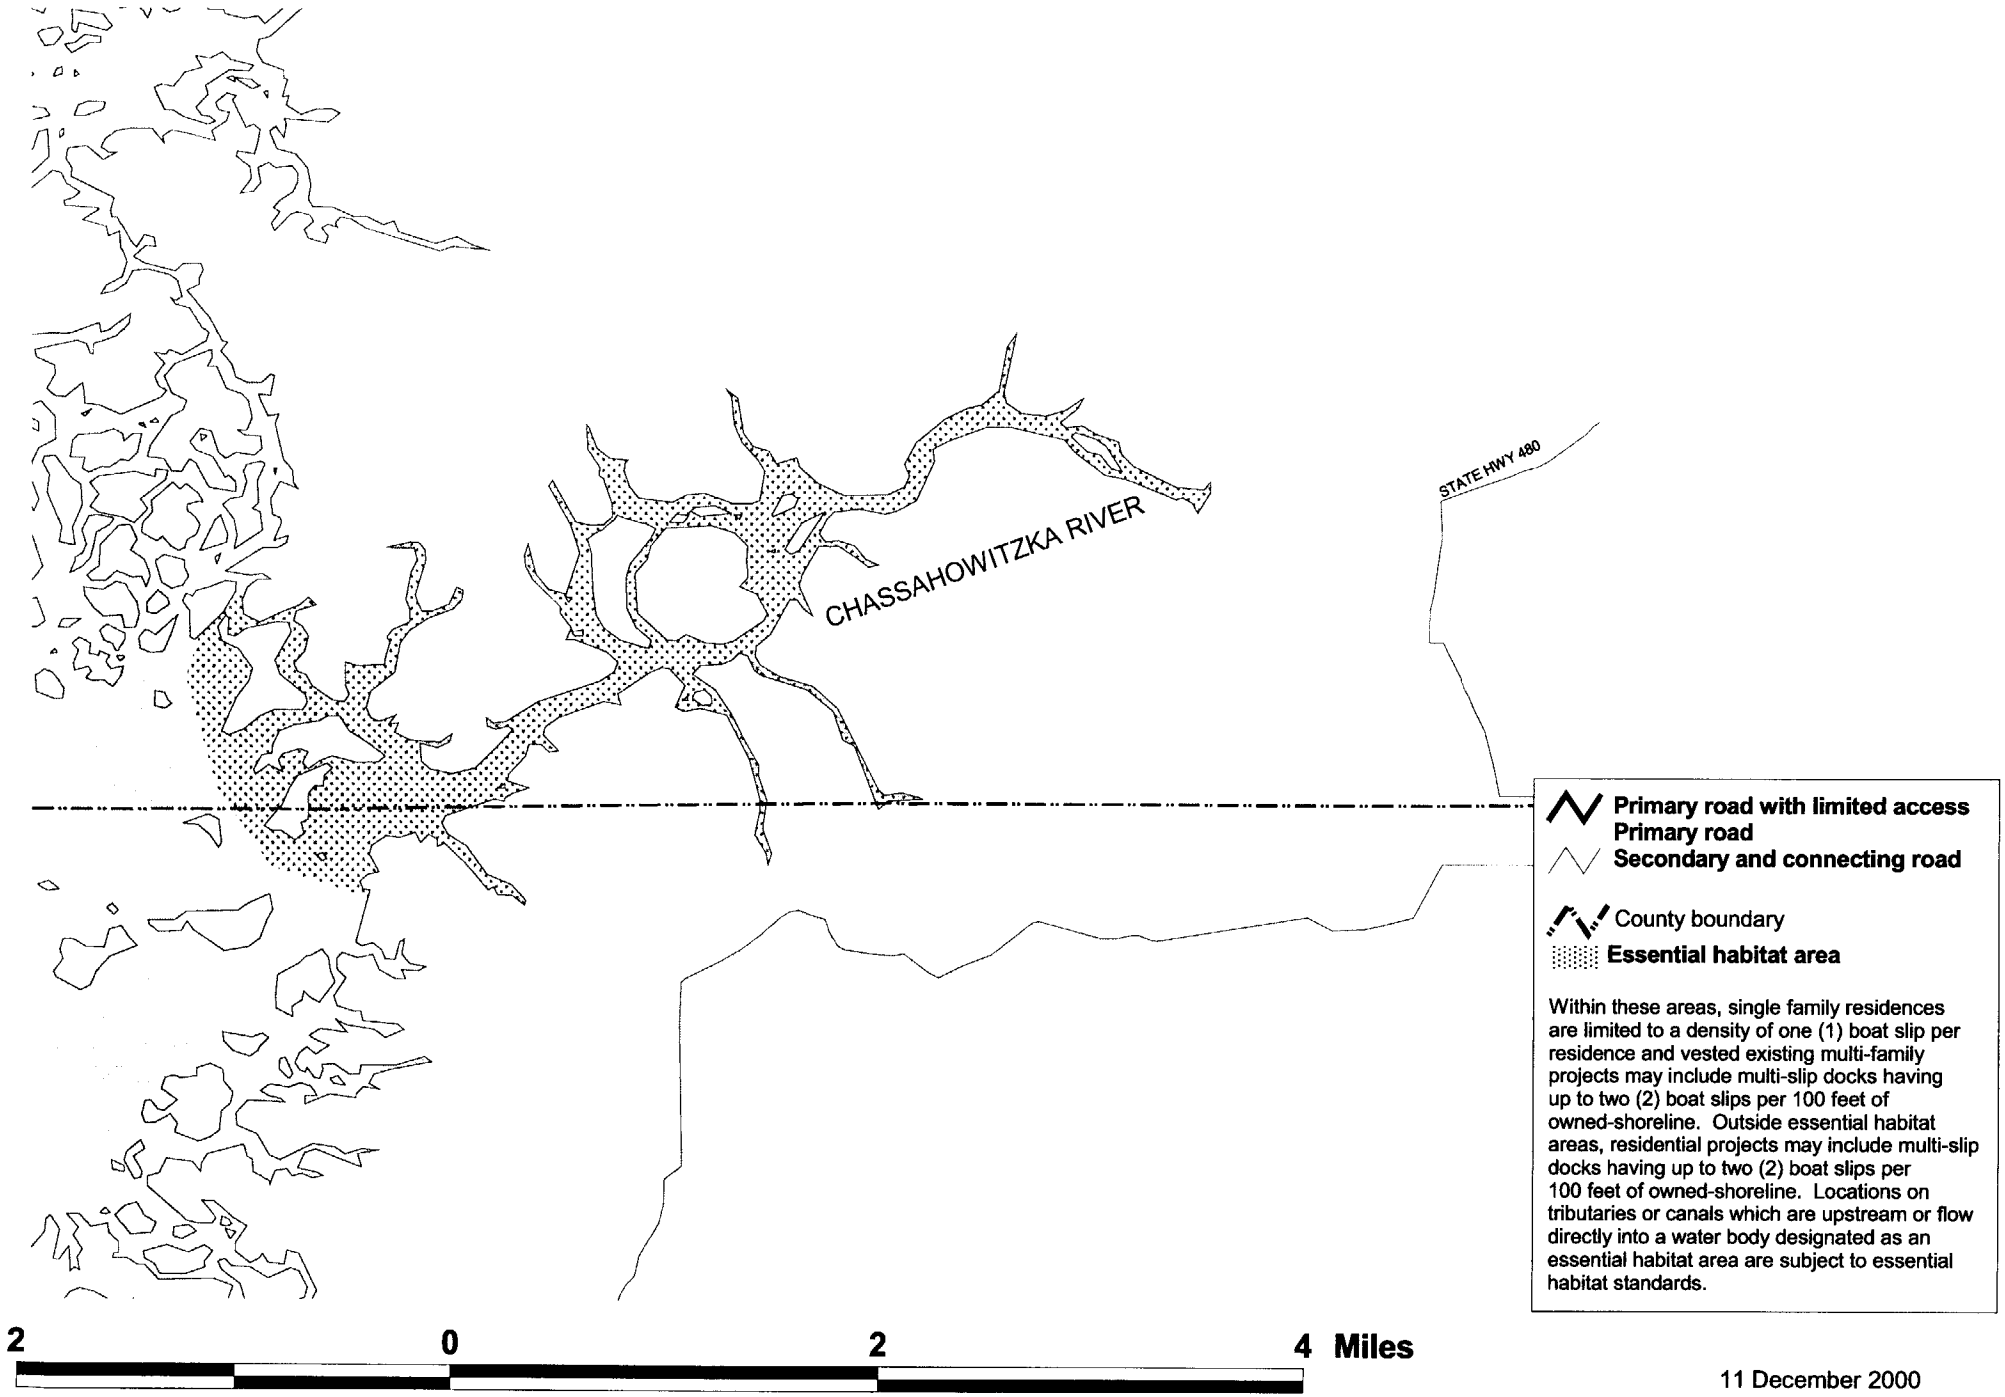
Citrus County



11 December 2000

Citrus County

Primary road with limited access
Primary road
Secondary and connecting road

County boundary
Essential habitat area

Within these areas, single family residences are limited to a density of one (1) boat slip per residence and vested existing multi-family projects may include multi-slip docks having up to two (2) boat slips per 100 feet of owned-shoreline. Outside essential habitat areas, residential projects may include multi-slip docks having up to two (2) boat slips per 100 feet of owned-shoreline. Locations on tributaries or canals which are upstream or flow directly into a water body designated as an essential habitat area are subject to essential habitat standards.
