

Phipps SEIS Public Meeting - Comment Sign Up Sheet

Name: JOEL MARTINO
Address: 109 Ocean Terrace
Palm Beach

Would Like to Make an Oral Statement Tonight: Yes No

Please Include this Statement/Comment in the Record:

Strip mining the ocean floor
to put sand on beaches that
are truly in need is a sad
but understandable idea.

However, to place sand on
most of the subject beaches is
not necessary for storm protection,
recreation or habitat preservation.

This beach area has adequate
rocky outcroppings and armoring
to withstand up to Cat. 2 hurricane
waves already.

Most of this area is not going
to be ^{further} protected by more sand. ^{offshore}

In fact, the sand available should
be conserved for truly needed future
projects.
