PUBLIC NOTICE

Permit Application No. SAJ-2004-2332 (IP-EPB) **SEP 14 2004**

TO WHOM IT MAY CONCERN: This district has received an application for a Department of the Army permit pursuant to Section 404 of the Clean Water Act (33 U.S.C. §1344) as described below:

APPLICANT: Davis Estates
2909 E. Irlo Bronson Memorial Highway
Suite A
Kissimmee, FL 34744

WATERWAY & LOCATION: The proposed project is located on the east side of Canoe Creek Road, south of Lorraine Estates, in Section 14, Township 26 South, Range 30 East, Osceola County, Florida.

LATITUDE & LONGITUDE: Latitude.....28°13'39" North
Longitude.....81°17'29" West

PROJECT PURPOSE:

Basic: Residential development.

Overall: Construction of a single-family residential subdivision in the Orlando and St. Cloud area.

PROPOSED WORK: The applicant proposes to impact 0.54 acres of waters of the United States (wetlands) for the construction of Davis Estates, a 31-lot single-family residential subdivision on this 20.4-acre site.

All of the 0.54 acre of wetland impacts will be to Wetland W-1 with 0.45 acre of impacts for the construction of a stormwater management system and 0.09 acre of impacts for the construction of an access road. The 0.06-acre isolated pond will also be filled.

The applicant has offered the following compensatory mitigation for consideration if it is determined that issuance of a permit is appropriate. The applicant will preserve the remaining 4.16 acres

of onsite wetlands and purchase 1.0 federal mitigation credit from the Florida Mitigation Bank.

EXISTING CONDITIONS: Wetland 1 is a Cypress Wetland (FLUCCS 621) that transitions to a Mixed Wetland Hardwood (FLUCCS 617). Wetland 1-A is a 3.85 acres Bald Cypress Wetland (FLUCCS 621) with a ground cover of Cinnamon Fern, Swamp Fern, and Netted Chain Fern. The edges are vegetated with Wax Myrtle, Blackberry, Grape Vine, and Primrose Willow. Wetland 2 is a 0.07 acre Cypress Wetland (FLUCCS 621) that is vegetated like Wetland 1-A.

Wetland 1-B) is a 1.1 acre Mixed Wetland Hardwood (FLUCCS 617 and is vegetated with Loblolly Bay, Red Bay, Red Maple, Silver maple, Bald Cypress, Fetterbush, and Dahoon Holly.

Surface Water 1 (FLUCCS 534) is a 0.06-acre isolated man-made pond.

ENDANGERED SPECIES: The U.S. Army Corps of Engineers has determined the proposal would have no effect on any listed threatened or endangered species or designated critical habitat.

NOTE: This public notice is being issued based on information furnished by the applicant. This information has not been verified. The jurisdictional line has not been verified by Corps personnel.

AUTHORIZATION FROM OTHER AGENCIES: Water Quality Certification may be required from the Florida Department of Environmental Protection and/or one of the state Water Management Districts. The South Florida Water Management District (SFWMD) is processing application number 040224-2 for this project.

Comments regarding the application should be submitted in writing to the District Engineer at the above address within 30 days from the date of this notice.

If you have any questions concerning this application, you may contact Elizabeth Bishop at the letterhead address, by electronic mail at elizabeth.p.bishop@saj02.usace.army.mil, by fax at 321-453-5220, or by telephone at 321-453-7655 X16.

COMMENTS: Davis Estates

CODES (multiple entries per cell not allowed):

Target Type or Type = target or existing habitat type from an established wetland classification system or land use classification for non-wetland mitigation

IMPACT ON NATURAL RESOURCES: Preliminary review of this application indicates that an Environmental Impact Statement will not be required. Coordination with U.S. Fish and Wildlife Service, Environmental Protection Agency (EPA), the National Marine Fisheries Services, and other Federal, State, and local agencies, environmental groups, and concerned citizens generally yields pertinent environmental information that is instrumental in determining the impact the proposed action will have on the natural resources of the area. By means of this notice we are soliciting comments on the potential effects of the project on threatened or endangered species or their habitat.

IMPACT ON CULTURAL RESOURCES: Review of the latest published version of the National Register of Historic Places indicates that no registered properties, or properties listed as eligible or inclusion therein, are located at the site of the proposed work. Presently, unknown archeological, scientific, prehistorical, or historical data may be lost or destroyed by the work to be accomplished.

EVALUATION: The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including cumulative impacts thereof; among these are conservation, economics, esthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership, and, in general, the needs and welfare of the people. Evaluation of the impact of the activity on the public interest will also include application of the guidelines promulgated by the Administrator, EPA, under authority of Section 404(b) of the Clean Water Act of the criteria established under authority of Section 102(a) of the Marine, Protection, Research, and Sanctuaries Act of 1972. A permit will be granted unless its issuance is found to be contrary to the public interest.

The U.S. Army Corps of Engineers (Corps) is soliciting comments from the public; Federal, State, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make or deny this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

COASTAL ZONE MANAGEMENT CONSISTENCY: In Florida, the State approval constitutes compliance with the approved Coastal Zone Management Plan. In Puerto Rico, a Coastal Zone Management Consistency Concurrence is required from the Puerto Rico Planning Board. In the Virgin Islands, the Department of Planning and Natural Resources permit constitutes compliance with approved Coastal Zone Management Plan.

REQUEST FOR PUBLIC HEARING: Any person may request a public hearing. The request must be submitted in writing to the District Engineer within the designated comment period of the notice and must state the specific reasons for requesting the public hearing.

John R. Hall
Chief, Regulatory Division
